

Capability Statement

Core Competencies

Thazen LLC, founded in 2017, is a U.S. based small business with a team of technologists, engineers and domain experts who provide modern technology consulting, software engineering and cloud platform solutions. We are a capability enhancer that helps your team achieve your mission goals, no matter how complex. We empower government and commercial enterprises to become more effective, innovative, and help organizations achieve their mission objectives. We provide capabilities and expertise in the following areas:

- Agile Software Development
- Software & Systems Engineering
- IoT/Edge System Development
- API & Systems Integration
- DevSecOps & CI/CD
- Microservices Architecture
- Web & Mobile Application Development
- AI and Machine Learning
- Game Design & Development
- Data Analytics and Business Intelligence
- Legacy Systems Modernization
- Cloud & Containerized Solutions
- Software Systematic Quality
- Software Test Automation
- Application Security
- Program Management

Differentiators

Commercial Industry Innovations

Bringing over 15 years of commercial cloud and modern software technology experience to the federal/government sector.

Financial & Payroll Scalability

Our company stands out with exceptional financial strength and capital, setting us apart from many smaller businesses in the market.

Uncompromised Security

Leadership Integrity - 100% of our Leadership Team has undergone and held **security clearances**, affirming their trustworthiness and dedication to national security.

DoD Software Modernization

Experience executing and delivering DoD IR&D engagements and Army programs to modernize legacy software and integrate new cloud native capabilities.

Stability & Cohesion

For over 10 years our core Engineering and Leadership Teams have maintained a cohesive working relationship. This ensures consistent quality, understanding, and seamless project execution.

Engineering Trust - 60% of our core engineering team have also held **security clearances**, guaranteeing a team that understands the importance of secure operations and data handling.
